Attached is a proposal to provide an "Integrated Logistics Support Program", submitted by American Industrial Management Systems, Inc. (AIMS) of Dallas, Texas. This was sent to Senator Tower's office, unsolicited, and it was forwarded for CIA consideration. It would appear to be something more for DOD's consideration. Would you please have someone review the proposal and provide OLL with a draft response to Senator Tower.

Thank you for your help.

DRAFT

The Honorable John Tower
Chairman
Armed Services Committee
United States Senate
Washington, D.C. 20510

Dear Mr. Chairman:

Under cover of your letter of October 31, 1983, you forwarded to me a copy of a proposal prepared by American Industrial Management Systems, Incorporated (AIMS), of Dallas. The proposal offers to provide integrated logistics support for Central America.

The AIMS offer has been reviewed by responsible officials in our Office of Logistics. While the proposal is of interest to us, the organization and services described therein go far beyond any current requirement of this Agency.

Your thoughtfulness in allowing us to review the AIMS proposal is greatly appreciated. Please convey our appreciation to your constituent at AIMS.

Sincerely,

Clair E. George
Director of Legislative Liaison

Dear Mr. Casey:

Enclosed is correspondence I have received from a constituent concerning a contract matter with the Central Intelligence Agency.

I would very much appreciate your providing me with a report on this situation.

Thank you for your assistance.

Sincerely,

John Tower

Enclosure

Please return to the attention of Rob Dickson.

American Industrial Management Systems, Inc.

October 25, 1983

Office of Senator John Tower
179 Senate Russell Building
Washington, D.C. 20510

Attention: Mr. Rob Dickson

Dear Mr. Dickson:

Attached is the proposal for the Integrated Logistics Support Program for Central America that we talked about this morning. Concerning the Harlingen, Texas area as well as overflow work to Merritt Tool Company.

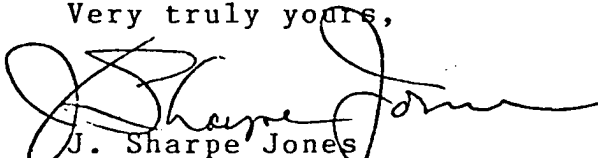

There are two problems involved in AIMS being successful in capturing this program.

The first problem is using Military Assistance Program money (grants or aid) with a United States contractor/field team type operation. The second problem, which is not as severe, is having the program sole sourced to AIMS. In reality we are hopeful in the next few days the Honduran Government will request, through U.S. military channels, these services. If this does not happen on a timely basis, we still feel we are the only company capable, on the spur of the moment, of supplying the specific individuals that could work harmoniously within the Honduran Armed Forces and accomplish the desired results.

We simply have not had the time to generate similar requests in El Salvador, Guatemala and Panama and several other South American countries that the U.S. Army is interested in assisting, but will do so in the near future. Will contact you personally on the 27th or 28th of October.

Thanking you, I remain

Very truly yours,

J. Sharpe Jones
President
